The Hong Kong Award for Young People welcomed the initiatives on promoting youth development in 2020 Policy Address

HKAYP welcomed the initiatives to introduce a new funding scheme implemented by The Youth Development Commission to sponsor eligible NGOs to organize local outdoor adventure trainings for young people. These activities encourage young people to improve perseverance skill and inspire them to serve the community which are an integral part of our work. We will actively support and participate in this scheme once the details are announced from the Administration.
